## OBJECTIVE

---

2nd year Software Engineering undergraduate at IPB University specializing in **Full Stack Development and UI/UX Design**. Passionate about creating user-centered digital experiences that balance functionality and aesthetics. Co-founder of a profitable ed-tech startup and skilled in modern web technologies including **Next.js, Laravel, and React**. Eager to apply technical and leadership abilities to impactful projects and product innovation.

## EDUCATION

---

### IPB University

2024 – Present

Bachelor of Software Engineering Technology

**Relevant Coursework:** Data Structures & Algorithms, Database Systems, Web Programming, Computer Networks, Operating Systems, Cybersecurity Fundamentals

### Guangdong Construction Polytechnic, China

Oct – Nov 2025

Student Exchange Program

Participated in an intensive vocational exchange program focusing on cross-cultural technical collaboration. Gained exposure to international industry standards and strengthened adaptability in diverse academic environments.

## SKILLS

---

### Programming

TypeScript, JavaScript, PHP, Python, SQL

### Web Development

Next.js 16, React 19, Laravel 12, Supabase, Tailwind CSS 4, Inertia.js

### Databases

PostgreSQL, MySQL, SQLite, MongoDB

### Design

Figma, Adobe Illustrator, Canva, UI/UX Design, UX Research

### Tools

Git, GitHub, VS Code, Vite, Google Calendar API

### Soft Skills

Entrepreneurship, Leadership, Team Management, Problem-solving

## EXPERIENCE

---

### Creative Core Team - Design, Google Developer Group (GDG) On Campus IPB

Oct 2025 – Present

- Collaborated with the core team to design and prototype interactive user interfaces for community events and digital products.
- Implemented responsive front-end components, ensuring design fidelity and seamless user experience across devices.
- Contributed to visual branding initiatives, creating assets that increased engagement for campus-wide tech workshops.

### Co-Founder, English Chill Course

Oct 2025 – Present

- Spearheaded strategic planning and business development for an accessible language learning startup.
- Led the technical development of the digital platform to streamline student registration and course management.
- Defined brand identity and operational workflows, driving early growth and user acquisition strategies.

### Webmaster Division, Himavo Micro IT Community

Sep 2024 – Present

- Actively participated in organizational activities and major events like IT FEST, contributing to community initiatives.
- Engaged in structured website development mentoring, gaining hands-on skills in web management and version control.
- Collaborated with the web team to develop digital skills, fostering a culture of continuous learning.

### Head Co-Coordinator (SIKRAB), Informatics Management SV IPB

Jun 2025 – Dec 2025

- Orchestrated the comprehensive welcoming program for the 62nd batch of Software Engineering students.
- Managed a large committee of student organizers, delegating tasks and overseeing multiple event phases.
- Developed integration strategies to foster a strong sense of community and academic preparedness.

### Coordinator, UI/UX Competition (PORTAL), BEM SV IPB

Mar 2025 – Oct 2025

- Led end-to-end management of the competition, from defining SDG-based themes to recruiting professional judges.

- **Developed the official event website from scratch** using HTML, CSS, and JS to serve as the central information hub.
- Designed the competition architecture and detailed assessment criteria, ensuring high-quality standards.

### Secretary Treasurer, Event Management Division (IT FEST IPB)

Feb 2025 – Oct 2025

- Managed the division's budget and financial records for a national festival with 200+ competitors.
- Designed strategic floor plans and layouts for official event venues to optimize attendee flow.
- Authored detailed administrative records and meeting minutes to maintain clear communication.

### Event Theming & Decoration Staff (PENDIKAR), BEM SV IPB

Feb 2025 – Jun 2025

- Collaborated on visual themes and decoration concepts to create an engaging professional environment.
- Designed, produced, and installed decoration elements for the main event venues.
- Created an immersive visual experience for 150+ participants from over 90 universities.

## PROJECTS

---

### English Chill Course (Co-Founder & Lead Developer)

[englishchillcourse.site](https://englishchillcourse.site)

Founded and scaled an English learning platform to **40+ students and 4 teachers**.

- Developed the official web platform using **Next.js 16**, **Supabase**, and **Tailwind CSS 4**.
- Implemented student management dashboards and automated session scheduling via **Google Calendar API**.
- Designed a high-conversion landing page focused on accessibility and premium aesthetics ("World Class" UI re-vamp).

### Aksilerate (Career Acceleration Platform)

*Upcoming*

Developing an AI-powered career platform ("Career Gym") for Indonesian students.

- Built using **Next.js 16** and **Gemini AI** with a Claymorphism design system.
- Features include an AI CV Builder, Interview Simulator, and smart matching for competitions and internships.

### IPB Agricultural Engineering Alumni Platform

[tplalumni.site](https://tplalumni.site)

Full-stack platform to connect alumni and track graduate data using **Laravel 12**, **React 19**, and **Inertia.js**.

- Implemented a responsive SPA with alumni directory, job board, news portal, and mentoring system.
- Integrated role-based access control (RBAC) and optimized performance for large datasets using server-side pagination.

### Portal 7 Website

[portalipb.site](https://portalipb.site)

Single-handedly developed the official site for **Portal 7**. Received **1000+ impressions**, serving as the main hub for registrations, event details, and global engagement.

### Kelana (AI-Powered Travel Ecosystem)

Co-created a mobile app concept leveraging AI for personalized cultural travel itineraries. Designed the **main visual identity and mascot**, integrating features like AI itinerary generation.
